SODALI

IS PLEASED  
*to invite you to its Workshop  
on February 18<sup>th</sup> at 5.00pm*

*for the presentation of its*  
**INSTITUTIONAL  
INVESTOR SURVEY 2020  
FIFTH EDITION**

## CORPORATE GOVERNANCE TRENDS FOR 2020: THROUGH AN ESG LENS

Morrow Sodali's latest Institutional Investor Survey covers the bulk of the global Asset Management field with most large and influential investors participating across a wide spread of geographies.

On top of identifying important issues and investor views on the upcoming AGM season such as Executive Remuneration, Board engagement and accountability, Corporate Reporting or the role of Activism, this year's survey addresses the growing importance of ESG in investment decisions, and the risks and opportunities that come with it.

Current topics and impact of the survey results for the Switzerland 2020 AGM Season will also be discussed, as well as lessons learned from the first AGMs this year.
